**Call for quote**

## MOTOR MOUNTS

The i3 motor (and REx) are suspended on brackets by 2 rubber mounts which can fail. Over the years, BMW upgraded both the bracketry and the size of the bolts, meaning on older cars it is not possible to just replace a failed mount, but also the bracketry.

Replace motor mount and bolt (per side)	<b>£258.53</b>	£234.53
Replace both motor mounts with upgraded bolts and metal bracketry (BEV)	<b>£1,059.89</b>	£968.69
Replace both motor mounts with upgraded bolts and metal bracketry (REx)	<b>£1,045.39</b>	£939.79

## ELECTRICS

Replace and register 12v battery (genuine BMW)		<b>£185.63</b>	£171.23
Replace charging door actuator		<b>£193.87</b>	£174.67
Replace charging cable locking pin actuator		<b>£265.87</b>	£232.27
Repair door window lifter wiring harness (window not operating correctly)		<b>£199.88</b>	£161.48
+ replace window lifter motor (if found to be required during repair)		<b>£156.59</b>	£156.59
